Positioning Straps

Standard Pelvic Positioning Strap

This sturdy positioning strap has a modified slide bar to reduce slippage, and allow adjustment for growth and seasonal changes. A plastic D-ring allows users to tighten the strap independently. Included bolt-down metal anchors provide additional strength.

- 12303 1 1/2" Push Button Pediatric
- 12304 2" Push Button Adult
- 12305 2" Push Button w/Rigidizer Sleeve (w/o hardware)

Anti-Slip Pelvic Positioning Strap

This sturdy positioning strap has an oversized slide bar to prevent slippage. Included rigidizer sleeve keeps the buckle easily accessible to the user at all times.

- 12312 2" Push Button w/Rigidizer Sleeve

Airline Style Positioning Strap

This positioning strap is particularly useful for users with limited hand dexterity. Mounting points include metal grommets to prevent fraying of the 2" nylon webbing.

- 12310 2" Airline Style

Pelvic or Chest Positioning Strap with "D" Ring

This low profile, lightweight chest strap is easy to apply and remove. It works well when occasional anterior chest stability is required. Made of sturdy 2" Nylon webbing.

- 12314 2" Strap w/D-Ring
