

## FOOTPLATE RISERS - 2", 4", & 6" SPACERS

These collar-to-collar spacers were designed to mount to existing 7/8" OD footplate support tubes and provide 2", 4", or 6" of additional spacing to elevate, extend, or contract your footplate from the factory position. These devices can also be used to attach accessory devices such as shoe holders, support pads, or Dynamic Plantar/Dorsi Flexion Coil Springs to your current hardware configuration.

- Provides 360 degrees of footplate position possibilities
- Allows for increase/decrease in knee-to-heel distance for preferred client positioning
- Allows the footplate to be placed in an elevated, extended, or contracted position
- Compatible with 7/8" OD footplate support tubes
- Direct mount to Miller's Folding Leg Extension Tube models #33153 & #33157
